If you are recommended for a parole grant/release, the time frame within which you shall be released, as established by the Chairperson of the Parole Commission, shall be reflected in the grant/order.

GENERAL REASONS FOR ACTION TAKEN

1. You have developed an adequate plan, but will need Agent's verification.
2. Your institutional conduct has been satisfactory.
3. Your program participation has NOT been satisfactory.
4. Release at this time would involve an unreasonable risk to the public.
5. You have NOT served sufficient time for punishment.

COMMISSION COMMENTS

You were seen today for parole consideration for case 99CF640 Ct # 1, 1st Degree Reckless Homicide and Ct #2, Felon in Possession of a Firearm. Your MR date for this case is 11-3-25 and your PED date is 3-3-14. This is a PMR case in which you have now served approximately 14 years and 10 months on a 40 year sentence, noting that you have also served time during this incarceration for 2nd Degree Recklessly Endangering Safety and Interfere with Firefighting. According to the record the index case from 2-4-99, involved you (while on parole supervision / Grant date 12-9-97) shooting your girlfriend in the head, resulting in her death. It is noted that you had been drinking and arguing when you pulled out a handgun from under a mattress and shot her one time in the head. You then fled the residence and hid the gun in a snowbank. You admit to the behavior, but claim that this was an accident. You state that the revolver had a bullet in the chamber, so you spun the revolver and then pulled the trigger not expecting that it would fire. At 38 years of age this is your 2nd incarceration and you have a lengthy assaultive criminal record, noting a juvenile adjudication for a gun case and an allegation from a previous revocation that you had held a gun to a mans head. Your conduct while incarcerated includes 25 minor and 2 major CR's with the last major (Unauthorized Communication) occurring on 4-22-02. You have unmet essential treatment needs of AODA (Wait List) and Domestic Violence (Wait List) each of which you have expressed an interest in completing prior to release. To your credit you have completed the CGIP (9-11-03) and Anger Management programs (2-28-00). Your release plan notes that you would like to live with your daughter. This may be workable, but will need your agent's approval when time frames are more appropriate. Based on the nature and severity of the case, the senseless taking of a life, the fact that you have unmet treatment needs and a poor history on community supervision (prior revocations in 1994, 1996 and 1999) it is clear that you continue to present as an unreasonable risk and that more time is warranted so as not to depreciate the severity of your offending behaviors and therefore the decision by the Commission will be to defer your case for 24 months.

This recommendation will require the approval of the Chairperson.
