

WHAT YOU CAN DO

July 23, 2016

We are building an effective coalition with members of several groups. Rallies and protests are being planned and we are working with several legislators on legislation that would dramatically change how we deal with the mentally ill and prisoners who the DOC considers a threat. Join us . We have started regular weekly conference calls and use "google groups" to make our back and forth emails less confusing. We need your help.

Contacts: Call for latest ground action, to help with legislative push or for information.
