Peg Swan

I'm writing you because the lawyer that you had contact me was very disrepectful to me and he was telling me that I was lien on the police officer and that my law suit amounted to pennies and that I had no merit to my law suit and all this crazy stuff. I made no comment to this lawyer (Martin R. Stein) for him to come to me in that manner. I felt that was very unproffessional on his behalf and it felt like that he knew the defendants and there lawyers and were friends with them how he was so defensive towards me. So I didn't appreciate you sending someone like that to me especially if you knew he's a type of person like that.

I'm not trying to place the blame on you but I used my last \$10.00 on my books to mail him alot of my stuff and mail the video to him so I felt that was a waist of my funds when I already have no one sending me money from the family or anything. I needed that money to mail out stuff to the courts and make copies and stuff like that so I felt some type of way about this whole ordeal. Sorry to bug you about this matter but I had to bring this situation to your attention so you can stop this lawyer from committing the same verbal abuse to other people you send him to. Thanks alot anyway and the help would of been much needed and with that said, I wish you the best of prosperity in all you do.

Respectfully Submitted;

P.S. Is it possible if you, can send me an up to date jailhouse Lawyer's Handbook and any other helpful legal material that
will help me with these prison civil issues I'm having right
now? I've suffered from lead poisoning as a child and won a
law suit settlement when I was younger and now I'm drinking this
water in waupun that has lead in it which I'm having symptoms
of head aches all the time, my hyper activeness is getting bad
again, and I can't concentrate on anything which are some of the
symptoms I was having when I was younger. Please get back with
me about that matter because it seems like waupun is'nt doing
anything about it and I been complaining to my clinician that I
need to be on some meds to calm me down and so I can concentrate

and focus because I haven't bee	en able to do that since I came
back to waupun in february of 2014. It's been documented about	
my lack of concentration and being very hyper active in my	
psychological records but I didn't let my clinician know it	
probably coming from the lead in the water here at waupun.	
So please inform me on what should I do about this issue and	
	tter. Thank you & God Bless!
<u> </u>	
I haven't filed any ICE or appe	aled there decision yet because
I wanted to here back from you to see if I have a possible	
law suit on this matter. So ple	ase let me know so I can file
an ICE and appeal the ICE decis	ion when it comes back. Thank
	of the protection with the control of the control o
