Peggy Swan

29631 Wild Rose Drive

Blue River, WI 53518

MS. SWAN:

ON December 1, 2016,

the Dept. of Corrections was granted a one year order for involuntary evaluation, feeding and hydration of me. I have continuously refused to voluntarily consume any nutrition or hydration in protest of the constitutional violations here at Waupun.

In addition to being deprived of the minimal civilized measure of life's necessities as described in "the nature of the hunger strike" that I submitted in case no 10-CV-57

As we are experiencing unrelenting and crushing mental anguish, pain and suffering as a result of the inadequate mental health treatment and the many years that we have spent without normal human interaction, in stark and restrictive conditions, without any hope or release from this living nightmare that does not end and will not end.

MS. SWAN, the devastating psychological and physical effects of prolonged solitary confinement here at Waupun

is well documented to cause mentally ill inmates significant mental harm and places them at grave risk of even more devastating future psychological harm.

As evident of this, me and MR. CESAR DELLEN endure beatings every single day, because we will not allow WCF officials to weaken and undermine us or break us. As they have claimed, we ARE CAUSING problems by brainwashing these inmates to go on hunger strikes in support of this protest. Additionally, we were told, that if we continue to not come out our cells to be forcibly feed or hydrated by WCF NURSING staff we would be beaten. So we ARE beaten, teased or sprayed with substances that are capable of causing death. These agents affects your ability to breath or see for long periods of time. DR. SALAM U. SYED recently testified that my health is still deteriorating and that my urine specific gravity show very large amounts of ketones and that my blood work for electrolytes are not normal. which could cause metabolic acidosis, electrolytes imbalance, cardiac complications, coma and death.

I believe these ARE SCARE tactics, because of my gluconeogenesis were in full affects by producing energy from non-conventional sources in my body. I would have be hospitalized already.

THESE ARE THE FOLLOWING PRISONERS AT WCI WHO ARE ON AN ACTIVE HUNGER STRIKE:

1. TOMMIE CARTER

2. CESAR DELEEN

3. JOSE SOTO

4. BRIAN NASH

5. WALKER

6. REDMEND

7. DAVIS

* I am also placing you on notice that these people are fabricating these meet minutes less claiming that we are acting in an attempt to get us off our strikes. It's just another tactic they use.

PLEASE CALL UP HERE TO WCI AND INQUIRE ABOUT US SEE WHAT THEY TELL YOU. I BELIEVE ANOTHER ROUND OF PROTEST OUTSIDE WCI SHOULD BE DONE ASAP BUT THIS TIME TURN THE HEAT UP.

CONTACT MY SISTER KATHY MEELIN (414) 552-3783 AND TELL HER EVERYTHING ABOUT WHAT THESE PEOPLE ARE DOING TO "US" HERE AT WAUPUN.

PLEASE SEND ME ALL THE INFORMATION THAT YOU HAVE ON THE USE OF FORCE AND HUNGER STRIKES HERE AT WAUPUN. EXCESSIVE FORCE IS STILL BEING USED ON

PROSECUTORS here at work every day.

The chapter that I need is on Deliberate
indifference in medical/mental health needs.

PLEASE do not forget to let your media and legislative
contact know what they are doing to us.

In November to December 2016 we went on
modified lock down because officer Nelson was
stabbed several times for purportedly provoking
and harassing a mentally ill person.

PLEASE write me back ASAP to let me know
if you get this letter. Thank you for the
lead.

Sincerely,
Tommy Carter
