I am Corresponding to you in regards to your forum for understanding prisons. I am interested in helping you and others understand what prisoners go through day and day out. Currently I am serving a "Life" sentence and I have been in Solitary-Confinement for a total of 2 years. For allegedly breaking rule violations basically I could have easily did sex time, and went to (G-P) general population. I was then told I was on A.C. due to my murder case supposedly because the media made it look like I am a cold-blooded killer. And I don't agree with that be

cause I didn't kill anybody I basically took the case to save my ex-girlfriend, and uncle from going to the Penitentiary and the person was known kin to me. But at this time I am appealing this matter as of now. But I say that to say this that's the real reason I am on A.C. Also the victim worked at the (HOC) House of Corrections out of Milwaukee, that's 30 minutes from Milwaukee from

Franklin. But yeah I am yellow phase at this time, and after that I will be Green phase, and have a total of 7 months to return to G-P. So that's my outlook upon it in next ^{letter} I will write more. The pleasure was all mine!
Sincerely, Mr. Andrés Tinoco P.B. I am enclosing PA work as proof to what I spoke of on today...
