Hello Miss Swan

My name is Elijah Brooks, as you see from my letter. I wrote you years back in 2007 to have my story innocence on a blog, and penpal blog also. However I never got back with you on that. Its all kinds of reasons I can give or not sticking to getting back at your help. One is being miseducated about your loyalty to helping people. I've heard your name come up a few times from some good brothers from over the years, and I thank you from being that woman of help those and these times. Anyways my reason for writing you again is because I need your help, and one of the brothers said to write you. ~~Do you have the address of a friend investigator that can help me for about \$5 hundred to \$8 hundred dollars??~~ I need an investigator to locate a few members of my jury trial panel for to obtain affidavits for the facts that the gun possession charge was used to solicit the jury to that I committed sexual assaults charges when there was know evidence to no such thing. Also need the investigator to locate the victim/or alleged victim's Brother to verify his involvement with me, his mother and sister situation in playing around put a hickey on his sister and mother's face (obtaining a affidavit). These people are all in Brown County - Green Bay areas. Last, I need the investigator to locate a court reporter out of Milwaukee Wis name: Miss. Dawn Obrenski, to see if she still has my "court reporter notes to obtain a order for the production of transcripts in a 1993 trial. The other case talked about above was in 2003.

Miss. Swan, as you see I'm not a writer but I hope you can understand me or what I have said. There's so-much I didn't write down but will get back at you. One thing though that I can tell you is that I am innocence, and that I have a handicapped brother out living in Brown County that I brought here from from out of a bad situation dealing with the 1993 trial case. I'm my brother's care-taker, and now again people are taking advantage of him. No one knows how it feels for me, all my life I have fought for him and tried my best to take care of him. I've been locked up since April 9, 2002 still hopping and fighting for help. So if you can send me the investigators information or if I got to go through you please let me know??

Is the still a computer blog open so that you can print my story and put me on for some kind of pen-pal??

Thanks for your time
Miss Swan

I know that your older, so I write me a few lines ~~that~~ I understand
