peg? These c.o.s is doing us inmates wrong. I got placed in the hole because my cell mate got caught with porn. one of the c.o asked me to pat search me and I let him. while I was talking to c.o wichmen another person came from behind me and grabbed me by my shoulder roughly. I turned around and got in a fighting stance because I thought that it was a inmate that grabbed me like that. All the correctional officers rushed me to the wall and hand cuffed me and I didnt do nothing wrong. And in the rule book correctional officers dont suppose to put they hands on inmates inless we say its okay for them to do so. The white shirt here gave me a ~~60~~ 60 ds time in the hole with no half time and I didnt even do nothing wrong. Not only that in segregation us over here dont even get ~~rec~~ rec or go to the law library. They always make excuses that they busy but dont none of these correctional officers even try to make sure we get what we opt coming. And whats so crazy we get oatmeal bread and peanut butter damner all the time for breakfast. They dont even feed us inmates unuff to keep us full until lunch time. Ever since this new warden came here every thing been going down hill. They given us a 60 for 3 D's and 3 d's aint nothing but cell confinement or loss of rec. They dont even give us face towels when its shower time in segregation. They dont even have ~~combs~~ combs in the hall ways or they dont even do 30 min rounds and come and check up on us inmates and make sure we a live. one time I didnt have my inhaler so I had to kick my door and I was kicking for four hours before they came and seen what I wanted. I try to ice these things but I know my mail is being messed with because I wait months and months before I have to just write another one. But I got so tired of they b.s I just stop writting them altogether. I really do ~~appreciate~~ appreciate the stamps because I'm all by myself in here and I dont have nobody doing nothing for me. It be very hard at times for me to get hygiene because I dont have no money other inmates behaving to give me things. All my family is gone so when these correctional officers do things to me I just try to keep my cool. But trying to do that all the time is not easy thats why I be segregation so much because I dont let nobody disrespect at all. sometimes I feel like giving up on life because I dont have nobody who love me and its very hard in here but Allah knows I'm trying so hard. I dont have a TV or a radio so thats why I just stay in segregation. I just wish I had a family who loved me and who would do things for me when I need it the most. Bless you peg you are a special lady I wish I had a mother like you who can love me. Michael Pugh 1/19/90
