

Dear Peg.

2-21-17

So after reading and talking it over with my cellie Mr. James Henri I feel I will send you ~~3~~ drawing from me and one from him with his name on it. I hope people dont make fun of him because he is a little slow but has a big heart and a all around a good person. James is my friend.

So on another note it sounds like you may have found a pen pal for me! Well a lady pen pal is what would make any mans stay in here. Just a lady is all I want! Maybe I will get lucky one day.

So now Peg you have a very clear understand of just how bad it was and get this Peg there is even more things Ive been through in Waupun Seg with an OBS status. It was truly HELL

And thats a under statement. And now I will suffer for the rest of my life because still to this date the DOC does nothing to help me. Maybe I wouldnt be this person if the prison system helped me before I got out in 2007 in Calif. But Wisconsin is No different when it comes to prison then Calif. And Im all messed up over it all.

I wish I could go back in time but thats just not how lifes or life work. It is what it is and I dont know what to do any more thats why I ask and ask for help. But

Not any luck yet. Maybe that's coming to, it's been some years but I think or wish it will get better.

We Reg lifes hard and I hope you see now just how hard its been on me in Wisconsin prison system.

Now on that note I will draw some stuff for you to do as you wish with. BTW I also Have PTSD now and Major Depression along with others but you should write them all down because they just dont go away.

Alright Reg now for some drawing And Remember you can post anything of mine you wish or do as you please with whatever I send you or ATTY Jim Edman.

your friend always

love
