

Dear Peg,

May 2nd, 2017

I've been doing very badly here in seg! I'm still not on my meds and am getting more out of control as i've battered 4 guards since Jan 15th, 2017 and 2 were in the last 2 weeks! I'm finally being sent out to Columbia Correctional Institution within the next two weeks and no later than 3 weeks from now!

Here's an update of what's all been going on over here for the last few weeks!

On 4-6-17 i told my psychologist that i'd be killing myself on 4-13-17 and she did nothing! Her name's Dr. Samantha Schwartz-Oscar! Then on 4-11-17 i cut my wrist up pretty bad when she was the Crisis Worker and she never talked to me or placed me onto observation. Then on 4-13-17 i cut my wrist again and she was called at home as she was the on-call Crisis worker and she didn't put me onto observation! Then on 4-14-17 i once again cut my wrist and she was also told that i didn't feel safe with my property in my room and that security staff caught me strapping myself down to the bed and she still didn't put me onto observation! Then at 3:40 am on 4-17-17 i forced security to strap me down and she came in and said "Yeah i made a mistake you should've been on observation since 4-11-17 the first time you started cutting your wrist"! Then on 4-20-17 i started cutting my wrist while she was the crisis worker and she ignored me screaming for her, the Sgt telling her i was cutting and several officers who

told her but for 45 to 60 min she just kept doing her sessions with other inmates when it was her main job that day to answer crisis issues and then she called down to GP for another psychologist to come do her crisis job and that took 30 min while i kept cutting and HSO refused to come see me for my cuts! Then on 4-25-17 she was once again the crisis worker and this time she walked by my cell door and big 4 foot by 4 foot windows and saw me cutting my wrist, upper arm, leg and neck and all she did was shake her head no whenever i asked to talk to her, laugh and smile and continue pulling guys out to talk to them while i cut all over my body from 2:45 pm to 6:40 pm while she was here in seg! The Sgt, officers and a seg inmate worker told her of my cutting and all she did was say OK or I already know! But she never came to see me or tell staff to search my cell as i was on observation and still able to have something sharp to cut myself! This is the very INCOMPETENT so called psychologists we've got here to try and help us! Then today 5-2-17 i cut my neck and wrist and she once again takes her time calling a GP psychologist up to seg to do her job as crisis worker and it takes 2 hours for them to get up to seg!

Take Great Care Of Yourself, Stay Positive, Stay Strong,
Pray For Me, God Bless You And Write To Me As Soon
As You Can? Please Post This Onto As Many Blogs As
You Can?

Put The Word Out About The
Incompetent Psychologist Dr
Samantha Schwartz-Oscar, Ph.D.

Sincerely,
Justin Lee Douglas #322
