Hello to you as always. It felt good to here from you. I am feeling sick still. I cough to much. The Court still hasn't screened my 1983 Civil Suit yet in Case No. Matthew C. Ste Channer ~~v. John Watt Edward F. Wall~~ 17-CV-221-Jdp. I hope they appointment me Counselor

The prison is on Modified lock down since June 1st to now. Yes inmates drug overdosed and died. The prison is group punishing us. we get one hour outside and one hour inside REC. The prison use to get outside all day with free movement. Now one unit to REC and outside at a time. The units are all segregated against each other. we barely see other inmates. It is illegal.

Also the prison takes our letters out our letters and shreds our envelopes. That should be illegal. we need post marks on our mail in case we get legal work to do. I want to leave this prison. It sucks here and makes my mental health worse. I want to go back to Racine medium.
