Ive been involved in programs that i have no needs

in order to better myself. I've taken mental
health programs and have become a better son,
father, brother and human being in learning that
i suffered from mental health issues and in
dealing with and connecting my thoughts.
Ive helped other inmates in dealing
with loss of loved ones and have been a

ing weather to the various recreation of
inmates that had come to me about having

of community service hours in helping
out in painting toys that was sent out to
local organizations while I was housed at Waukena.

I was a tutor and mentor in the C.S.I.P.
program. I have a high school diploma and
live here employed my cultural interpretation.
