

## Overall Risk Potential

### Risk

Violent Recidivism Risk	Low
General Recidivism Risk	Low

## Criminogenic Need Scales

### Criminal Involvement

Criminal Involvement	Low
History of Non-Compliance	Low
History of Violence	Medium
Current Violence	High
Early Onset	Medium
Prison Misconduct	High
Gang Indicators	Low

### Relationships/Lifestyle

Reentry Substance Abuse	Probable
-------------------------	----------

### Personality/Attitudes

Negative Social Cognitions	Highly Probable
Criminal Thinking Observation	Unlikely
Low Empathy	Probable
Life Goals/Aimless	Highly Probable
Anger	Unlikely
Reentry Cognitive Behavioral	Highly Probable

### Social Exclusion

Vocation/Education	Unlikely
--------------------	----------

### Mental Health

Depression/Mental Health	Highly Probable
--------------------------	-----------------

## CURRENT CHARGE AND CRIMINAL HISTORY SUMMARY

### Current Offense Summary

---

Offense category(s): Homicide, Weapons, Robbery  
Do any current offenses involve family violence? No  
Which offense category represents the most serious current offense? Violent Felony  
Was this person on probation or parole at the time of the current offense? Neither  
A. Suspected or admitted gang membership pre-incarceration. No

### Current History Summary

---

How many times has this person been returned to prison while on parole? 0  
How many times has this person had a new charge/arrest while on probation? 0  
How many times has this person been arrested before as an adult or juvenile (criminal arrests only)? 4  
How many prior juvenile violent felony offense arrests? 0  
How many times has this person been arrested for a felony property offense that included an element of violence as an adult? 0  
How many prior murder/voluntary manslaughter offense arrests as an adult? 0  
How many prior felony assault offense (not murder, sex, or domestic violence) arrests as an adult? 0  
How many prior misdemeanor assault offense (not sex or domestic violence) arrests as an adult? 0  
How many prior weapons offense arrests as an adult? 1  
How many prior family violence offense arrests as an adult? 1  
How many prior sex offense (with force) arrests as an adult? 0  
How many prior drug trafficking/sales offense arrests as an adult? 0  
How many prior drug possession/use offense arrests as an adult? 0  
What was the age of this person when he/she was first arrested as an adult or juvenile (criminal arrests only)? 17

### Institutional History

---

How many times has this person been sentenced to probation as an adult? 0  
How many times has this person's parole been violated? 0  
How many times has this person's probation been violated or revoked? 0

## CRIMINOGENIC NEEDS NARRATIVE SUMMARY

### Violent Recidivism Risk

---

#### Violent Recidivism Risk Scale Score: Low

Mr. JANARI MCKINNIE's violent recidivism risk scale score indicates that his risk of being arrested for a new misdemeanor or felony person offense within two years in the community is low, based on recidivism rates among groups of persons with similar risk scores in outcomes studies.

**Comments:**

There are currently no comments on this narrative.

---

## General Recidivism Risk

### General Recidivism Risk Scale Score: Low

Mr. JANARI MCKINNIE's general recidivism risk scale score indicates that his risk of being arrested for a new misdemeanor or felony offense within two years in the community is low, based on recidivism rates among groups of persons with similar risk scores in outcomes studies.

**Comments:**

There are currently no comments on this narrative.

---

## Gang Indicators

### Gang Indicators Scale Score: Unlikely

The Gang Indicators Scale suggests that Mr. JANARI MCKINNIE is unlikely to be currently involved with a gang.

**Gang Indicators Statement:**

Mr. JANARI MCKINNIE did not appear to be a suspected or admitted gang member prior to incarceration. He did not receive any disciplinary actions for gang type activity or affiliation during incarceration.

**Gang Indicators Treatment Implications:**

High scores indicate gang involvement which need to be factored into treatment and case plan strategies, particularly when there is a generational history of gang involvement.

**Comments:**

There are currently no comments on this narrative.

---

## Reentry Substance Abuse

### Reentry Substance Abuse Scale Score: Probable

Mr. JANARI MCKINNIE's substance abuse scale score suggests that he may have a substance abuse problem and that substance abuse treatment intervention or aftercare program of some kind upon release may be warranted. A more in-depth substance abuse assessment may also be prudent to determine appropriate level of treatment.

**Reentry Substance Abuse Statement:**

Mr. JANARI MCKINNIE reported committing offenses while high/drunk. He reported having prior drug charges/convictions. JANARI reported having a history of drug problems and indicated no history of alcohol problems. Mr. JANARI MCKINNIE did not report any prior treatments for drug/alcohol abuse and did not indicate any history of failed drug/UA tests. It appeared to the interviewer that Mr. JANARI MCKINNIE is at risk for substance abuse problems.

**Reentry Substance Abuse Treatment Implications:**

**Comments:**

There are currently no comments on this narrative.

**Depression/Mental Health**

---

**Depression/Mental Health Scale Score: Highly Probable**

Mr. JANARI MCKINNIE provided responses that suggest a mental health history (e.g. depression) that may warrant a more in-depth mental health assessment. This may suggest plans for aftercare services in the release plan.

**Depression/Mental Health Statement:**

JANARI responses suggested a likelihood of depression needs, having a suicidal need, and having an anxiety need. Mr. JANARI MCKINNIE was prescribed psychotropic medications during his incarceration. JANARI reported having some prior history of suicide attempts.

**Depression/Mental Health Treatment Implications:**

Inmates scoring probable or highly probable on this scale may need treatment follow-up or an aftercare plan incorporated into their reentry plan. Provisions may be needed to assure that the inmate has timely access to prescribed medications to minimize the risk of gaps in prescription refills.

**Comments:**

There are currently no comments on this narrative.

Dear to whom it may concern;

I have been doing well with my Mental Health treatment/recovery. I take my medication as prescribed, I speak with the psychologist when I am struggling and I utilize all of my (coping) skills and techniques that I've learned from when I was housed at The Wisconsin Resource Center. So, right now it is safe to say that I am in a stable place with my Mental Health. My doctors will confirm that I have'nt had a major setback in years.
