7.9.20

Ms. Peg, how are you doing? I trust and hope you are well. I'm doing good under the circumstances. Ones received your letter and info and I do have a medical issue, my left shoulder and neck injury caused by staff here in 2018 and I'm still in pain and haven't had my MRI, so I can use that in my motion for extraordinary circumstances Executive 31. Yeah, We should've been paroled due to all the things we gotten done and I haven't been in seg for 2 years and haven't had any conduct reports in 15 months. Did you get a copy of my parole hearing decision? If not here's one. They saying ones need to get to medium but I have no control over that they need to make me a priority A and send me to medium, so I can enroll in the program but I need to be out on the streets.

They have the T4C (Thinking for a change) here and I tried to get into the program before this pandemic but they denied me even though like 8 prisoners I know refused the program.

I've been trying to get in contact with some of the black lives matter movement, but I don't have any of their e-mail addresses, because I know they could assist brother/sister that's

On these modern day plantations to free us if they bring this tragedy to the light or exposure. I will write to Makda Fessahaye, Administrator to get moved to medium soon because this is only an excuse to continue holding us captive because there's nothing in the statutes that says a prisoner have to be in medium or minimum to be granted parole. They are still acting under Tommy Thompson order back in 1994 to hold violent offenders as long as possible.

This is a injustice because these prisons are over crowded and the T10 prisoners are not enrolling in programs, because they don't see no benefit but old law prisoners like myself has completed programs and are willing to complete them but the staff refuse to allow us in them even though we have no bad conduct and there's nothing for us to participate in.

Yeah, I went all the way to trial with my lawsuit and I lost but still got their attention and that's why I have a pending case #19-cv-145-wmc against these bastards for the same thing assault/robberies they had to have reason to assault me because I was suing their co-workers. I am waiting for the screening but their pandemic put things on hold. I'll keep you in tune, but miraculously I got released. Take care and stay in touch!

Respectfully,
— Zaheem —
