

## Life of Faith

Life may throw you some ups and downs  
You just have to be strong, and hold your ground  
Just as you're ready to give up, and lose your faith  
Get down on your knees, fold your hands, and pray.

Ask Him for forgiveness, for all the bad choices you've made  
Make a promise to Him to change your ways  
God doesn't hold grudges, He always forgives  
It doesn't matter what you've done, or how many times you've sinned.

Don't ever think that you are not worthy of Him,  
For he is God, and only sees the beauty within  
While the world judges you, for your actions,  
the mistakes of your past, and the color of your skin.  
He sees you for you, So please believe in Him.

He will guide you through your troubles and hard times  
This I know, because He helps me through mine.  
When my heart grows heavy, and as I'm about to fall.  
He speaks to me and says, "My child, Please Stand Tall."

"For I am here beside you, to guide you through it all."  
"You need not to worry, I will catch you before you fall."  
So I thank you Father, for forgiving me for all my sins.  
Cause I know, with you in my corner, there is no  
battle I can't win.

10-1-2020

Peg,

Hey How's things been going for you? I hope all has been going good on your end. I see you got my emails and responded. I wanted to send you some of the forms they gave us on our lockdown here at Oshkosh Correctional Inst. I ended up writing Governor Tony Evers to let him know what's all been going on in his Wisconsin prison systems. Not sure if that will help anything at all. I'm in contact with inmates all over Wisconsin and some from other states so I hear alot that goes on in different prison systems all over Wisconsin. I believe in change and forgiveness. And the only way we will ever get that in a broken overpopulated Wisconsin Prison system is if we all come together and try to get them to bring prison reform to Wisconsin. I've even wrote ABC, NBC, local 5, and Fox news stations about the Covid-19 out breaks and spreading through the Wisconsin prison system. So we will see what happens but I'm going to keep this short so it gets to you. Well you take care of your self and write back when you can. God bless you!
