Hello Mrs. Peggy Swan.

I read your e-mail to P.O.C.

It was a shame how covid-19 ran
thru the prisons so fast and one inmate
had die. Dont know how long we will
be lock down, we all have to be
retested soon, I was negative for covid-19

But I also had health problems as well
I did tell the staff about it at 3.A.M
one night I had a fever and cold
chills at my age 66, yr. old I was
afraid so I pray to God not to
let me die in prison. My results come
back negative, my cellie he tested positive.
they moved me into a cell where
the inmate was also negative.

I use to warn my old cellie
C-Block

(2)

about keeping his hands in mouth daily while we watch T.V. he stated he had a C.D. Condition.

He was tested positive so they moved me.

We will be ~~retested~~ retested one day soon.

I think I can pass it again when re tested.

I have been thinking about writing the judge in case to make a decision on my writ of habeas corpus, it's been since may 15.20 I am afraid it might piss her off and she will deny my motion, for asking I will try to know up and ask her to make a decision it's been 30 months since she was to decide.

Please send me some writing paper and stamps.

Thank you for your study 058316
