To whom this may concern

This complaint is to do with Covid 19 here at Waupun Correctional. Since this Covid 19 Academic has started we inmates have been limited to cleaning supplies such as hand sanitizer. The staff here at Waupun are trying to say that the reason we don't get hand sanitizer is because inmates drink it. How can an inmate drink it if we never get it? Please let it be known that officers are allowed to carry hand sanitizer on their belt and use it at their own discretion but us inmates aren't allowed any. Inmates here at Waupun are limited to hand soap and we can barely get any disinfectant spray to clean our bars and our cell. Officers are supposed to be wearing face masks but yet some officers don't and they go to cells and talk to inmates. This is dangerous because if the officer that's not wearing a mask has Corona virus he can pass it to the inmate. Officer might not even know he or she has it. Please let me note that officers sit at desks and they all take their mask off and want to yell, sneeze and cough, cameras in front of desk can show this.

Sincerely

Chance
