Dear (FFU P)

I was reading your template. The complaint I have most, is the "Bathroom I do not believe is not sanitary as a fellow was in unit 4. Then he went to the hole. When he came out they moved him in unit 9. About 6 months or so ago. I heard he was suppose to have some kind of infection.

As ever since then, I get it off and on. I get rid of it and in awhile I get it back. I have it on the back of my right thigh and some time it gets inside my right leg. Oh does that burn. Oh I got, Dermarest, well that is just a cover up.

If they would be giving the bathroom clean disinfection, like they should so they can ~~disinfect~~ disinfect the toilet seats. Oh course they got supposedly disinfectant. But is it true disinfectant. It says disinfectant on the bottles, I do not believe it. as if it was, that should not be coming back. That infection. They called me up to H5U. For my vitals. I seen Stephen Randall, R.N. so I showed it to him, all he said it is a red spot. Wasnt intrested a bit about it. and in the place it is, could only come from a toilet seat. I believe that H5U should

take care of with out charging co-pay. That is all they care about is that \$7.50 co-pay. They say we don't turn any one down, if they don't have co-pay. Well they get that co-pay. So that's a lie.

That or bath rooms are dirty, or I would not have this infection, when I showed the RN, he would of been intrested in getting it cured. I was in Red granite 13 years, Got a lot better medical attention and not paid one co-pay. When I got called in at Red granite. I would show something to them and they said we'll take care of it. they told me when they call a person in, they don't have to charge co-pay. they could ~~do~~ do that here. No!! they got to have that money.

I got ~~red~~ itching all over my body, they charged me co-pay \$7.50 took a scraping and biopsy. Give me the Dermareet. Left it at that. all they wanted is \$7.50 co-pay. they say, when there is a symton there is a cure. that is what I want!"

I read write your warden. I have about other things and she says follow chain of command. I wrote to secretary Carr. and he just sends it back here for them to take care of. Well if they would of took care of it, I would of wrote to him. That is the No common sense they have. When I had followed chain of command.

They have signs up, wash your hands. you got 2 ~~sinks~~ sinks and only 4 work any desent.

You push on the faucet water comes let
 up on it and the water quits. So how you
 going to wash your hands that way, one hand
 at a time, about 6 or so months I told them
 about the faucets, they said they have got all
 new ones coming, I wonder where they are coming
 from. Last winter a boiler ~~went~~ went down
 and it took almost 3 months to get it fixed
 or changed, that is ^{ridiculous} Red granite a
 boiler goes 5:00 AM they shut it down, and 2:00 PM
 it is up and running. Here mit just a well
 say when they don't start anything until 9:00 ^{AM} 10:00
 you hear them calling people in even teachers
 not being there. Well again you never hear none
 of that in Red granite, all the workers know
 when they leave work at night when to show
 up for work in the morning. I got to laugh.
 It is stupidity, No common sense.

But that Bathroom, ~~new~~ needs a ~~see~~ good
 sanitizing that is my complaint with Hsu
 should be doing better than they are, all
 they care about is that Money, money, money.
 They got that wrong to start with, It ~~too~~
 should be instead of Health service unit. It
 should be Health care unit. HCU, not Hsu,
 that's not here now there.

IV
I wrote to the Health commissioner, ~~who~~^{never}
got an answer. Even to the state Health and ~~the~~
they don't answer. ~~Who~~ who can I write to?
I sure^{wish} this place gets straighten out. It
that Bathroom and Hsu is in real bad shape.

Thank you / God Bless you.
