Hi Mrs Swan.

Okay so there's about 394 inmates at Wapuan Correctional which have tested positive for the corona virus 6 of which are hospitalized due to the severity of covid-19. The institution is still not taken this seriously they still are denying inmates the proper use of disinfectants they expect us not to properly sanitize our living areas. They spray our towels twice in expect us to clean our rooms with it yet since the last outbreak we have not been allowed to clean our rooms at all coz the institution is on lockdown and we are only allowed to shower once a week there's no way the virus is going to leave this institution they are not cleaning the common areas used by staff or the inmates they are taking infected inmates from one unit in the institution and placing them in another part which only makes the other inmates in that unit sick from the virus yet the staff are not listening to our demands and our health is being ignored completely I am in constant fear that I might die I have several health issues and I have already tested positive and I was not treated at all no vaccine no medication I was moved to the north cell hall in expected to stay in my cell and I was not even allowed to shower and I am still experiencing systems now. and I was not treated they took my vitals and told me to drink plenty of water, my kidneys hurt, I had a headache for the last week and I get tylenol for other injuries so I take them but they don't work my back hurt my throat hurt I feel dizzy. and I am really afraid I will die because they are not doing anything to help us.

I wrote up that inmate grievance complaint three you

me to do in I mailed it to you I will mail you a copy
of the decision and the appeal. Keep in touch also did
you check on that book yet?

Your Friend Jermaine
